The Outdoor Power Equipment Institute of Canada (OPEIC) proudly offers a non-profit, easy to use recycling solution for electrical outdoor power equipment such as lawn mowers, grass trimmers, and pressure washers.

Like other non-profit recycling programs, this program is funded by an environmental handling fee (EHF) applied to the sale of new electrical outdoor power equipment products in B.C. The fee may be included in a product's price or displayed as a separate charge at checkout. The fee is used to cover all costs associated with managing the program.

PRODUCT CATEGORY	RECYCLING FEE
Hand-held equipment (e.g. electric grass trimmer)	\$2.50
Free-standing equipment (e.g. pressure washer)	\$7.70
Walk-behind equipment (e.g. electric lawn mower)	\$10.00
Lawn Tractors	\$40.00
